Fernando de Noronha - PE

Your guide to a unique experience of science, connection, and the beauty of Noronha.

Between Paradise Islands and Brilliant Minds!

Dear Congress Participant,

Welcome to the 2nd Face BAPS In The House, an experience created exclusively for plastic surgeons dedicated to facial surgery.

In Fernando de Noronha, we will bring together more than 50 plastic surgeons for an immersive experience combining high-level science, technique, innovation, meaningful connections, and unique experiences.

On December 17 and 18, our program will be dedicated to scientific sessions. On the 19th, the experience takes on a special format, with a live broadcast from the laboratory directly to the auditorium at Forte Noronha.

More than a congress, Face BAPS is a gathering designed to bring great minds together, deepen discussions, and create connections in one of Brazil's most extraordinary destinations.

Welcome to the 2nd Face BAPS In The House
Welcome to Noronha.
